CF-20T

The Little David® CF-20T is a fully automatic case former built for applications that require a small foot print and slower speeds. A patented box flow process has made the CF-20T a one of a kind case former that is in a class by itself. With its low cost, payback is in a short few months. Now every production line can justify a completely automatic case former.

Specifications:

Case Dimensions:

- **Length:** 6" - 16"
- **Width:** 6" - 12"
- **Height:** 4" - 12"

Weight: 750 lbs

Production Rate:

- Up to 6 cases per minute, depending on case size and corrugated quality

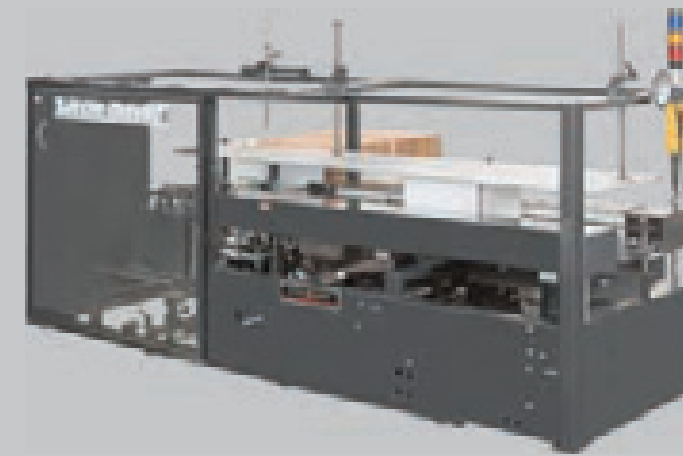

Power Requirements:

- 110 VAC, 60Hz, single phase, 3 Amps

Air Requirements:

- 7.5 SCFM @ 80 psi

CF-40T

The Little David® CF-40T is a large capacity automatic case former designed for easy size changeover and maximum user friendliness. The CF-40T's chain and lug side drive automatically squares the case and compensates for poor tolerances in corrugated dimensions. The chain driven powered hopper accepts up to 150 RSC or HSC cases. The CF-40T is easily integrated into most production areas, and portable with optional casters.

Specifications:

Case Dimensions:

	CF-40T	CF-40TXL	CF-40TXXL
▪ Length:	7" - 24"	7" - 28"	17" - 33"
▪ Width:	6" - 16"	6" - 22"	13" - 27"
▪ Height:	4" - 16"	4" - 24"	7" - 24"

Weight: 1750 lbs uncrated

Production Rate:

- **CF-40T:** Up to 20 cases per minute, depending on case size and corrugated quality
- **CF-40TXL:** Up to 10 cases per minute, depending on case size and corrugated quality
- **CF-40TXXL:** Up to 10 cases per minute, depending on case size and corrugated quality

Power Requirements:

- 110 VAC, 60Hz, single phase, 10 Amps

Air Requirements:

- 13 SCFM @ 80 psi

CF-30T

The Little David® CF-30T is a compact automatic case former that has been designed to provide all the case forming features typically found in a larger, more costly machine. The CF-30T has the capability to process a wide range of regular slotted, or half slotted corrugated case sizes. It has an easy load hopper that accepts up to 34 inches of corrugated (about 96 cases). The CF-30T's compact frame allows it to integrate easily into most production areas and it is easily portable. A case uprighting device and power hopper are standard on all CF-30Ts.

Specifications:

Case Dimensions:

	CF-30T	CF-30TXL
▪ Length:	8" - 18"	11" - 20"
▪ Width:	8" - 15"	8" - 20"
▪ Height:	6" - 15"	9" - 20"

Weight: 1000 lbs

Production Rate:

- Up to 10 cases per minute, depending on case size and corrugated quality

Power Requirements:

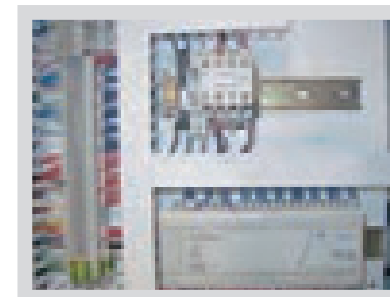

- 110 VAC, 60Hz, single phase, 10 Amps

Air Requirements:

- 13 SCFM @ 80 psi

Calibrated scales provide quick and accurate size changeover

Allen Bradley® PLC controls are standard on all

Features for All Case Formers:

- Calibrated scales
- Powered hopper
- Pneumatic tuckers
- Allen Bradley® PLC
- Quick changeover
- Heavy duty steel construction
- Built in the U.S.A
- Continuous motion flight bar (CF-30T only)
- Positive drive system

Available Options:

- Automatic central lube (CF-30T and CF-40T only)
- Spare parts kit
- Special electrics
- Custom color
- Low hopper warning
- Low tape warning
- Box jam warning
- Custom height adjustments
- Stainless steel
- Available in CE, NEMA
